PUBLIC COMMENT		
information regarding what happens where	me forward and stated he lives on Long Lake nen a lake is mismanaged. The lake is becom di need to address this issue. Property values	ning a bog.

and he would like this on the next Council agenda.

1 Mr. Merril Osterrich, 8861 Ideal, came forward and stated he is concerned with the lake and what is 2 happening to it. It used to be a recreational lake and can no longer be used in that way.

Ms. Lisa Paddock, 10025 Keswick, came forward and extended an invitation to everyone to the third annual tractor parade hosted by the Grant Restoration Project on Saturday, September 8 from noon to 3:00 p.m. She stated the parade starts at the Gasthaus, goes to Town Hall and then back to the Gashaus and is a community event. The GRP encourages the Council to attend and it is a perfect time for a meet and greet as there will be a special tent for the Council. She stated she hopes everyone can join them.

Mr. Larry Lanoux, Keswick Avenue, came forward and referred to an article in the St. Paul Pioneer 9 Press regarding water quality, tanks on the school site and critics not being intellectually honest. He 10 11 referred to a picture of a sign of Mr. Tom Carr that is out at the ball field. He stated there was a lot of dirt that had to be hauled out of state and the Mayor never asked why it was being hauled to other 12 sites. He read a resolution approved by the City Council regarding this issue. The Met Council 13 decided to bring in sewer and water. He asked why all of this had to be approved in one night. He 14 stated it was rubber stamped by a majority of the Council and engineering wasn't even brought in on 15 the plans. The Mayor did not allow public input on this issue and he has documentation that the site 16

17 is in fact a super fund site.

18 Mr. Bob Zick came forward and raised four issues. He stated residents are saying they fear exercising

their rights to get information at City Hall. The Mayor and Council Member Huber need to stop using

their positions to slander Mr. Sederstrom and Mr. Lanoux who are running against them. The Mayor

- and Council Member Huber need to recluse themselves from voting on a political attack on Mr.
   Sederstrom, Mr. David and Mr. Lanoux, as they should have done with the grazable acres issue. The
- 23 City Council needs to listen to its citizens.

Mr. John Wycoff, City of Maplewood, came forward and stated it is not being intellectually honest to bring up two men and remove them from the premises for providing information from the School District.

Mr. Loren Sederstrom, 107<sup>th</sup> Street, came forward and stated he would like to further clarify issues that were brought up at the last Council meeting. The EPA inventoried all dump sits in the state. He has the documentation from the dump site and the v-wrap program. The site was labeled under the umbrella of a super fund site.

Mr. Bob Englehart, Joliet Avenue, came forward and stated the Mahtomedi School District is troubling him. They can't run the City or tell the City who to empower within the City. He suggested the City give them the property so they have the liability. It is ridiculous to have them here as they should go by what that City wants and the CUP.

Mr. Mark Wojcik, 110<sup>th</sup> Street, came forward and stated the Planning Commission has seven people and it is a good credible group. He stated he does not believe the Council always respects the PC. The PC looked at the grading permit process and had watershed districts present. The PC wanted residents to go to the watershed districts first. The concern then was liability with the City. Mr. Lanoux addressed that with the group. That did not make it into the minutes and he believes it should have. The website does have Council minutes posted but not PC minutes. He asked why the PC is being excluded from that. 1 Mr. Bill David, Keswick Avenue, came forward and stated he and the Mayor had a conversation 2 about the tractor parade poster being on the website. The Mayor said it could not be posted due to the

3 advertisement. The White Bear paper has two pictures of the parade in it. He added the City is

- 4 apparently responsible for bringing sewer and water to the City with the school, thanks to the current
- 5 Council.

Ms. Joyce Welander, 83<sup>rd</sup> Street, came forward and stated she has been a 4H leader in the County for many many years. The new leaders do not want anything to do with the City of Grant because of the banner problems. 4-H will have a float in the parade but she only got help from a couple of previous members. The current leaders are very upset with the current Council and have no allegiance to Grant at all. She stated the new leaders want her to step down and split the group but she won't let that happen. 4-H will not do the flower beds anymore and that is why you don't see 4-H members around anymore.

Mr. Jerry Helander, Jasmine Avenue, came forward and stated he keeps hearing the tractor parade is not political but three founders of the GRP are running for City office and they want the current City Council at the parade. It is nothing a political ploy to get current officials out of office.

16

## 17 STAFF REPORTS

18

19 City Engineer, Phil Olson

20

Justen Trail Neighborhood Overlay Notification Process – City Engineer Olson provided the background and reviewed the proposed changes discussed at the last Council meeting. He distributed another draft and highlighted the language that was added relating to assessments.

24

## Council Member Bohnen moved to send out the Justen Trail Neighborhood Overlay Notification letter, as amended. Council Member Fogelson seconded the motion.

26 27

28 Council Member Huber asked if there is a system to bring other neighborhoods in on potential

- projects. City Engineer Olson stated staff can go out and investigate other areas that may coordinate with the original project area.
- 31

Council Member Bohnen stated he would be comfortable taking out the statement relating to the economy of scale and potential for projects costs to be reduced if other neighborhoods are combined.

- The Council agreed to omit that statement.
- 35 36

37 Motion carried unanimously.

38

Mahtomedi Elementary School Site - City Engineer Olson stated that as requested, he has reviewed the current and past status of the Bellaire Transfer Station #2 in the City of Grant related to whether or not it was listed as a Superfund site. Information from the EPA and the PCA was

42 reviewed. Based on this review, staff found the following information:

• The site is not currently listed as a Superfund site.

## **COUNCIL MINUTES**

1 2 3 4	• The site was not historically listed as a Superfund site. It was previously placed on the CERCLIS list. The CERCLIS list is a database to track activities under the Superfund program. Being placed on the CERCLIS list does not mean that a site is a Superfund site. Three options exist for sites that are on the CERCLIS list. They can either be determined that a) no		
5	further action is needed, b) sampling is needed, or c) that emergency removal of the		
6	contamination is needed. The site subsequently entered into the MPCA Volunteer		
7	Investigation and Cleanup (VIC) Program and was ultimately removed from the CERCLIS list		
8	because of the actions the site underwent through the VIC program.		
9 10	City Engineer Olson confirmed that CERCLIS is a federal program and the entire site was looked at.		
11 12	<b>Staff Report</b> – City Engineer Olson reviewed the August staff report relating to engineering activities.		
13			
14	City Planner, Breanne Rothstein		
15			
16	City Planner Rothstein introduced herself and stated she is happy to be in Grant. She requested		
17	Council direction regarding City meetings.		
18	It was the concensus of the Council that the City Diamag would attend City meetings as needed on		
19 20	It was the consensus of the Council that the City Planner would attend City meetings as needed or when there is a specific agenda item.		
20	when there is a specific agenda field.		
21	Masterman Lake Clear Cut Enforcement Issue – City Planner Rothstein advised the Masterman		
23	Lake Clear Cut issue is being worked and is being resolved.		
24			
25	City Attorney Vivian advised the City does not have an administrative fine system in place. The		
26	Deputy can issue criminal violations or citations. In this case, the issue goes to the Planner to try and		
27	resolve the issue. If not resolved, it may come to the City Council for enforcement action.		
28			
29	Complaint Protocol and Communications Process - City Planner Rothstein provided the		
30	background on this item noting the most significant change to the proposed policy is the removal of		
31	timelines leaving it up to staff's discretion. She stated this is formalization of the current policy.		
32			
33	Council Member Potter moved to adopt the Complaint Protocol and Communication Process,		
34 25	as presented and direct staff to prepare a resolution. Council Member Huber seconded the		
35	motion. Motion carried unanimously.		
36 37	Staff Report – A report from City Planner Rothstein was provided for August 2012 planning		
38	activities to be placed on file.		
39	activities to be placed on me.		
40	City Attorney, Nick Vivian		
41			
42	Data Practices Policy Revision – City Attorney Vivian reviewed a draft of a proposed Data Practices		
43	Policy. He advised it would be prudent to update and revise the current policy as the City is receiving		

so many data practices requests. It is also important to refresh the current requirements and note that

<ul> <li>City Attorney Vivian advised the new policy conforms specifically to the state law that requires someone be designated as the responsible authority and fees can be charged. It refers to the specific state law as it is written today. The goal is for the public to understand how the process works. He noted he is unaware of any escrow requirements that have been tested in Grant. There are larger cities that do charge escrows. The language in the proposed revision gives the City the authority to an escrow and it is also standard practice.</li> <li>Council Member Huber requested the Clerk's specific name be removed from the draft.</li> <li>Mayor Carr moved to approve the Data Practices Policy Revision, as amended. Council Member Huber seconded the motion. Motion carried unanimously.</li> <li>Ordinance No. 2012-27, Adjustment of Fee Schedule for Grading Permit Revision – City Attorney Vivian advised Ordinance No. 2012-27 is authorization to amend the fee schedule relating to the grading permit revision.</li> <li>Council Member Potter moved to approve Ordinance No. 2012-27, as presented. Council Member Fogelson seconded the motion. Motion carried unanimously.</li> <li>Resolution No. 2012-07, Summary Publication of Ordinance No. 2012-27 – City Attorney Vivian advised Resolution No. 2012-07 authorizes a summary publication of Ordinance No. 2012-27.</li> <li>Council Member Huber moved to adopt Resolution No. 2012-07, as presented. Council Member Fogelson seconded the motion. Motion carried unanimously.</li> <li>Staff Report – A report from City Attorney Vivian was provided for August 2012 to be placed on file for review.</li> <li>Building Inspector, Jack Kramer – A report was from Building Inspector Kramer was provided for August 2012 to be placed on file for review.</li> <li><u>NEW BUSINESS</u></li> <li>Resolution No, 2012-08, 2013 Levy Certification, Sharon Schwarze – City Treasurer Schwarze advised the Counci has had two budget meetings. There is a proposed small increas</li></ul>

42 43 Council Member Huber moved to adopt Resolution No. 2012-08, as presented. Council	
4 Member Potter seconded the motion. Motion carried unanimously.	
45	

Resolution No. 2012-09, 2013 Preliminary Budget, Sharon Schwarze – City Treasurer Schwarze 1 advised Resolution No. 2012-09 finalizes the City's preliminary budget. 2 3 Council Member Bohnen moved to adopt Resolution No. 2012-09, as presented. Council 4 Member Fogelson seconded the motion. Motion carried unanimously. 5 6 Charter Form of Government, Jack Smith – Mr. Jack Smith came forward and stated he 7 appreciated the opportunity to address the Council regarding the Charter Form of Government. He 8 provided a presentation that outlined the advantages and disadvantages of the Charter Form of 9 Government. A handout was provided regarding this issue. He stated he believes there may be a 10 better way to do things and the Home Rule Charter is an option. The features of this form of 11 government are that citizens write the Charter and citizens are in control. He noted there is no cost 12 issue with being a Charter City. He explained the process of becoming a Charter City and how the 13 Charter Commission is appointed. 14 15 Council Member Potter expressed concern regarding one person, that being a judge, appointing the 16 initial commission. 17 18 City Attorney Vivian stated the Charter Form of Government is significantly different from what the 19 20 City has now. There are idfferent rules and an different ordinance process. There may be many current ordinances that would have to be revised, although that would depend on the Charter itself. 21 22 Mr. Smith added there would not be a vote every month or every year relating to the Charter. A 23 Charter provides incentive for the Council to do the best they can for the community. Citizens can 24 put issues on the ballot and don't need the Council to do that. There is a formula for that and it is 25 26 done by petition. 27 Mayor Carr called for a five minutes recess at 8:37 p.m. 28 29 Mayor Carr called the meeting back to order at 8:45 p.m. 30 31 Performance Review for Planning Commissionr Larry Lanoux, Loren Sederstrom and Bill 32 **David** – City Attorney Vivian provided the background on this issue noting this was scheduled last 33 34 month but he had to leave the meeting. This performance review is designed to make sure everyone is on board relating to the Planning Commission and their authority as City Officials. Each of the 35 Planning Commissioners did want this discussion to be held in open session. 36 37 38 City Attorney Vivian advised the Council did receive a brief memo providing basic information on concerns occuring in the last several months. He stated he wants to make it clear that the Planning 39 Commissioners were not directed by the City Council to meet with the League of Minnesota Cities 40 Officials. He noted there were complaints made about the City Clerk at the League and that is 41 concerning. In April there was an incident at the City office that included staying there an excess 42 amount of time and making demands. The Clerk is responsible for the day to day operations of the 43 City. He made the point that Mr. Sederstrom is not participating in the verbal abuse or harrassment as 44

45 Mr. David and Mr. Lanoux have. They are making the duties of the Clerk very difficult to carry out.

## **COUNCIL MINUTES**

The Clerk has conveyed this to him and the Mayor. A meeting was held with the intent to bring the 1 concerns to the Council and then meet with the individuals privately. Letters have been received from

2

the School District outlining concerns that the school is being added as an agenda item at Planning 3

Commission meetings without the School District being notified. In July, the City received another 4 letter about Mr. Lanoux and Mr. Sederstrom's conduct at a meeting held by the City Engineer and the

5 disruption at that meeting. There was another incident at a meeting in Fridley where Mr. Lanoux and 6

7 Mr. Sederstrom spoke as PC members and that is a concern for the City.

8

City Attorney Vivian advised there are three specific concerns: 1) League of Minnesota Citites 9

indicident; 2) harrassment of the City Clerk; and 3) School District matter that continues to play out. 10

From a legal persepctive, government needs to operate and function. The Planning Commission 11

serves at the direction of the City Council. Planning Commission members have to be objective in 12 looking at all application and other matters. Each member is required to look at facts and can't view 13

applications at their own will. There is a line that can be crossed and they always have to be 14

objective. Planning Commissioners are officials of the City and can create liability to the City. The 15

City has to make sure they are functioning in their role. He advised the Council to provide direction 16

to the PC members. The City Clerk is a key component to the Council and Planning Commission. If 17

the Planning Commission cannot function within that framework there is a problem. He stated he 18

would like everyone to be on the same page so there are not future issues. He stated the Council 19

should allow the PC members to address the Council. He noted there are implications to the City 20

when individulas are acting in the capacity of a City official. 21

22

Ms. Diana Longire, Attorney for Mr. Sederstrom, came forward and asked if this type of performance 23 24 evaluation has ever been done before. She asked if there was a resolution passed to put this on the agenda. As a procedural issue, it would be appropriate to pass a resolution or at least take a vote on it. 25 She stated views this as charges being made against the individuals. She advised Mr. Sederstrom was 26 on the phone most of the time and was outside when the incident took place at the office. She also 27 offered verification of that. She stated it appears as though there has been a "cut and paste" type of 28 approach with her client. There was not a dispute with her client regarding the incident at the League 29 of Minnesota Cities. The LMC does encourage City officials to gather information and Mr. 30 Sederstrom told the League he was a PC member. She referred to the issue with the Mahtomedi 31 School District and said the letter from them is a strong one. Mr. Sederstrom did write a letter back to 32 33 them and she entered a copy of the letter into the record. She read parts of the letter noting Mr. Sederstrom was invited by the property owner and he was not trespassing. Mr. Sederstrom has 34 indicated he has been on school property twice. She stated she wanted the letter dated August 13 35 entered into the record, phone records would be provided if the Council requests them as well as any 36 37 documents requested from public records that show Mr. Sederstrom expresses himself as an individual and not as Planning Commissioner. 38 39

Mr. Larry Lanoux came forward and advised he did go to to the LMC to get information on job 40

descriptions and he did not state he was on the Planning Commission. The purpose was that the 41

Planner was writing her own job description and charging the City for that. He stated he did get bids 42

for the siren and did not say he was on the PC. He stated the Clerk got a call from LMC and then 43

made a call to the City Attorney. A lot of dollars are being spent on this sort of thing. He stated he 44

did get an apology letter from the City Attorney and that is proof. He stated he has called the school 45

site a super fund site and he has proof that it is. He has yet to see proof from the School District that 1 he has trespassed on their property. He indicated he has not been on the construction site. He stated 2 the school is running our City. The site does come under the umbrella of a super fund site. He noted 3 he has that number for the site and he did not make it up. If the School District wants to cite him for 4 trespassing then he encourages them to do so. He stated he has objected to the school all along and he 5 would not send his kids there. The Mayor had met with the school for a year secretly to get the school 6 7 approved. There was not a good public process and the school let seniors out of class to vote. The vote itself was not publicized. He stated he opposes it very much and objected to plans going out to 8 advertise for bids. It was out on their website and it was an illegal bid process. 9 10 City Attorney Vivian stated no one disputes Mr. Lanoux's position on the school As a member of the 11 Planning Commission, the concern is objectivity when it comes to them. Mr. Lanoux serves on the 12 PC and is very involved in the opposition to the school and that may be a liability to the City. 13 14 Mr. Lanoux stated someone made the decision to bring the Met Council into the City of Grant. 15 Where did the PC review well and sewer? The Mayor and Council Members Huber and Fogelson 16 voted to bring sewer into the City of Granat. He stateds he did not bid on the grading plan. The City 17 will be in a lawsuit with the first child gets sick. He stated he is working on legislation to stop 18 schools from being put on dump sites. No testing has been done on the soil there. He stated he has 19 been to the City office to get documents on the school, although he still hasn't seen the spec book. 20 The school is not 600 feet away, it is 350 feet. Where is the fire count for the school? He stated he 21 has never been given that answer. The rough estimate he does have is 975 total enrollment. There are 22 plans to expand and bring the elementary school there. The City called an emergency meeting for the 23 24 schoo.1 The Mayor never wrote a statement calling for an emergency meeting. The meeting was held and no public comment was allowed and the Sheriff threw him out. Grant should annex the site to the 25 City of Mahtomedi. Landmark was hired but they custom their reports to needs of the customer and 26 environmental issues. The MPC do not warrant the site for this type of use. Why didn't the Council 27 have the MPC come to a meeting? He requested a document from the MPC relating to testing. He 28 added that he has been to the City office and brought issues to the Clerk to bring forward to the City 29 Council. 30

31

Mayor Carr stated that PC members are held to a different standard, as is the Council. The MPC has been out to the site for testing. He stated he cares about the City's liability and as a PC member some of these things may be inappropriate. He noted he appreciates Mr. Lanoux's passion and he has a

- 35 right to his opinion.
- 36

37 Mr. Lanoux stated he has been doing very well on the PC. A complaint policy was put together and

the grading permit has been revised. A parade has been put together. He encouraged the Council to

remove him from the PC if they don't agree with that. He added that he will hold the School District

- 40 accountable because the City is not.
- 41

42 Mr. Bill David, Keswick Avenue, came forward and stated they were at City Hall asking for help with

the tractor parade ands the Clerk was very helpful. He stated the Clerk may just be frustrated because

- she made a mistake and he called her out on that. The City Attorney is frustrated maybe because
- there are no more staff meetings. He stated he sees the City Attorney as policitcal and fueling the fire.

He noted the letter from Peter Coyle does not refer to him but the City Attorney's staff report refers to
 him. He asked why his name is on the staff report.

3

City Attorney Vivian advised an outline of the performance evaluations has been stated for the record.

Mr. David stated he does not voice his opinion about the School District very often because he has a
vested interest in the plowing contract. He stated he has been slandered and doesn't believe this is
how we want the City represented as well as City officasl represented in this manner.

9

10 Council Member Huber stated he has reviewed some of the records that he has that supports the

11 concerns. He stated he does not understand why the LMC would make these things up. He read why

the City of St. Paul Attorney did not pursue the case. He stated the City is not having a trial this evening but the Council has to look at the facts and make sure the PC is functioning property. When

several incidents occur one loses credibility. Several things that have been said tonight lead to the

15 question of PC members being able to look at applications objectively. The City Clerk had no other

choice but to give potential criminal activity to the City Attorney. There may be axgrinding going on

here and you can disagree but you are creating a liability and that affects everyone and the City

budget. He implored the PC members to use better methods one example would be going to the

19 School District Board with your issues and concerns. If there is something the City can do about the

- 20 issues then the Council does want to hear about it.
- 21

22 Mr. Lanoux stated he did and does have an electrical license. The State Inspector indicated he did not

and all the Clerk had to do was call. Instead she held onto it for eight days and then brought it to a

- 24 Council meeting and showed everyone. There is a pattern here and he never got any apology. Part of
- the problem is City staff.
- 26

27 Mayor Carr stated that when these things happen it is very difficult for the City Clerk to call you.

28 You have a right to way what you want but you are a Planning Commissioner. Can you have a bit

29 more discretion? The City now has liability issues and they have to be addressed. He noted he hopes

30 the City does not get any more letters from the School District.

31

32 Mayor Carr asked the Council if there was any action they would like to take. No action was taken.

33

34 Mr. Terry Derosier, Chair of the Planning Commission, came forward and stated he would vouch for

the three members of the PC. He stated he has found every one of them very benefical on fact

36 finding. He stated he hopes the City won't vote to remove them and the PC will continue to get

- 37 better.
- 38

City Attorney Vivian stated that in reference to evaluation performance, Mr. David's name is not
referenced in the letter from the School District's Attorney. The reference is a result of a conversation
held with Mayor Carr and Council Member Bohnen.

- 42
- 43 Mr. Bob Englehart, Joliet, came forward and stated he is happy all of this came to a head from the
- 44 problems at the City office. He stated he is still waiting for an apology from Council Member Huber
- relating to him causing problems. All three of the PC members have not brought issues from the

school up at PC meetings. It was citizens at those meetings that brought them up. Not everything can 1 be thrown on those three people. You are using your own political agenda. 2 3 Council Member Bohnen stated that if he were as passionate as Mr. Lanoux he would have a hard 4 time voting on any school issue. He asked if Mr. Lanoux is objective enough to be impartial. 5 6 7 Mr. Lanoux stated that based on the facts, yest he would. However, he would explore the facts. He stated he brought the facts to the Council but they did not investigate. The City did not need to put 8 these kids at risk needlessly. 9 10 Council Member Potter stated that these are process issues and politics of the Council. Everyone 11 needs to work as a family. The question is what can the Council do to work better together. The 12 Council has talked about workshops with the PC and Council to review expectations and be clear 13 about those expectations. The Council needs to take action on those. 14 15 Mr. Gary Baumann, 10036 Joliet, came forward and stated he went to most of the School District 16 meetings. The School District told him he did not know what he was talking about. The School 17 District is bullying the City. 18 19 Council Member Fogelson stated he suggested a joint meeting with the PC and Council at two 20 meetings. He indicated he believes that should be done to go over expectations and talk about a plan 21 to work better together. He suggested a joint meeting be held at the next PC meetings. 22 23 24 Council Member Potter stated the City has the opportunity to use the new Planner to better define expectations. 25 26 Mr. Mark Wojcik came forward and stated there should always be a point to talking. He stated he 27 thinks Grant is great and he would like to make it better. It seems at times that the Council wants the 28 PC to go away. Until the Council looks at the PC as positive having a meeting is a waste of time. 29 30 Mr. Jack Smith came forward and stated this was not a typical human resource management 31 experience. Typically all individuals are called in and a discussion is held. This was not a discussion. 32 33 Mr. Terry Derosier, Chair of the Planning Commission, came forward and stated it may be beneficial 34 to wait until after the election to schedule a joint work session. 35 36 **OLD BUSINESS** 37 38 May 21, 2012 Planning Commission Minutes – Mayor Carr advised Chair Derosier has indicated 39 40 the minutes will be taken care of at the next Planning Commission meeting. 41 42 **DISCUSSION ITEMS** 43 Public Comment Inquires, Mayor Carr – Council Member Bohnen requested Long Lake be on the 44 45 next agenda.

City Council Reports – Council Member F	ogelson advised he will get the newsletter to the Clerk	
and she will send it out to everyone.		
Council Member Potter advised the Met Council is asking for participation in a new program. The		
is a meeting in September in Stillwater. He	requested the information be posted on the website.	
Council Member Fogelson suggested steps b	be located in the back of the Town Hall building.	
The Council directed the Clerk to get some s	steps installed.	
Mr. Com Downson come forward and in oui	ad shout a discussion relating to Jamaas and Jaffaar	
-	red about a discussion relating to Jamaca and Jeffrey	
Avenue.		
Mayor Carr sated he has had communication	relating to that issue and will be going to the meeting.	
wayor can saled he has had communication	i relating to that issue and will be going to the incetting.	
Staff Reports (any undates from Staff) – (	City Planner Rothstein advised she would be tracking the	
	back. The listening sessions at this point are about	
regional goals.	buck. The listening sessions at this point are about	
	·	
Mayor Carr advised when the meetings get t	o the point that the City needs to be represented the	
Council would like the City Planner to attend
